Bulletin #07-17

Date: June 28, 2017

Council Members Representation Numbers
--

We are currently working to update our website and develop a trifold CECCO introduction document.

It is important for us to be able to advise number of constituents CECCO represents.

To assist us in these endeavours we need to know the total number of contractors your organization represents and the approximate total number of all employees.

Please advise the following information.

**Council
Member:** _____

Number of contractors represented: _____

Total approximate number of employees: _____

We would appreciate a timely response.

Thank you

Wayne Peterson
Executive Director
